## NOTES!

*Haji Forqan*

*Mulah Omar*

*Mullah Hibatullah*

*Colonel Halimov*

*Bagram airforce base*

*Haji Forqan*

*\* for months, It was rumored that Haji Forqan was killed and replaced by a mirror image. **Resolved - Photo's of Haji Forqan. in Pul-e-Khumri, Baghlan, taken on date: 28\_4\_2022***

*Mullah Omar*

*\* Mullah Omar died before 2003 and was replaced by a creative narrative.*

*Mullah Hibatullah*

*\* It seems the figurehead Mullah Hibatullah is part of a similar narrative.*

*Colonel Gulmurod Halimov*

*\* Fabricated for narrative - former commander of the Special Forces of Tajikistan, joined the Islamic State (IS) in Syria, in May 2015. Halimov had a significant following inside Tajikistan as well as Russia. Even though he has been reported killed several times, the Tajik authorities rejected those reports. Halimov's name remained on the UN Security Council's sanctions list. Starting with a fictional visit to Kabul on August 25, 2021, the intelligence department of the Haqqani Taliban and ISI fabricated reports of Halimov's meetings in Afghanistan with high-ranking Taliban and leaders of ISIS. On Saturday, August 27 2022 his remains were released.*

*Bagram airforce base*

*\* Some time after Kabul's fall, fuel and lubrication is delivered at Bagram airport to over one hundred "contractors" who are serviced by a group of 300 third-tier workers from India. In part protected by Badri forces from the Haqqani network. While another part of the airport is protected by fighters from the Quetta Council.*

## FIX THIS

The enemy appears driven and motivated by something other than ideology or funding. Every one of these events (could have) occurred as a result of a failure of imagination. The job is not to predict tomorrow based on yesterday. That's what academics do. The task is to prevent the end of tomorrow by using your brains and your imagination. If you don't identify and find the threat before it's too late, you might be held responsible for the single largest intelligence fumble since a flight instruction school in Florida failed to grasp the significance of a 19-year-old Al-Qaeda terrorist saying he didn't need to learn how to land.

## Some paid advice

Ultimately, one can find them all to be human failures.

But suppose you believe that wars and insurgencies resulted from intelligence failures, or even worse, a lack of strategy. In that case, consider yourself lucky because nobody will tell you their actual military strategy and intelligence policies, only for you to have an opinion. No, you are at the receiving end of a successful strategy and intelligence narrative.

## A context of intelligence operations

Since 2007 the intelligence services prepared for a significant shift in real US geo-policy, military power, and intelligence.

---

*An essential part of that shift, leaving war zones and decreasing its military presence in partner countries, occurs. It is explicitly cutting off Iran, Pakistan, and Israel. Allocated financial DoD resources show that what remains are substantial special operations (US-SOCOM) [...] a prioritized global monitor function. [...]*

---

## Why HUMINT

Why do we need secret agents? Isn't it all rather quaint?

Is it that we see a different, more frightening world than you do?

Our enemies are no longer nations and do not exist on a map but are non-state actors and unknown individuals. Look around you, who do you fear? Can you see a face, a uniform, a flag? No. Yet, before breakfast in their pajamas, they can do more damage from their laptops than an intelligence agent can during a year in the field. Online organized crime doesn't know law and order, has a Wild West mentality, and is lawless to the core. Anarchy.

While transparency became fashionable in the West, the world is not more transparent now. Today it's more opaque, in the shadows, and that's where we do battle. So, before you declare that irrelevant, ask yourselves, how safe do you feel?
