## 'Deep Cycle' Intelligence DELIVERABLES

Ultrascan HUMINT operations code name 'Deep Cycle' continues to reveal specific objectives of Al Qaeda, ISIS and its affiliates.

- 1) strategy
- 2) execution framework
- 3) long-term target focus
- 4) short-term hit list
- 5) modus operandi regarding operations
- 6) communications regarding activities
- 7) movements within the region
- 8) hideouts
- 9) agents
- 10) financing sources
- 11) infiltration methods within the Public sector
- 12) Assessment of suspected supporters within organizations/ agencies
- 13) disruption activity capabilities (limited to local activities)
- 14) strategy alignment with cross-border affiliates
- 15) leadership focus assessment

For any other ISIS and Al Qaeda special projects in Africa, South Asia, and Central Asia countries additional charges apply to specific HUMINT on request, case by case.

INTELLIGENCE USE ONLY

INTELLIGENCE USE ONLY

## SUICIDE BOMB RUSSIAN EMBASSY

Report regarding the first part of the attack by the suicide attacker at the entrance of the Russian embassy. The attacker wanted to enter the Russian embassy but was identified and disrupted. As a result, several other people, including two Russians, were killed and wounded.

[14:56, 9/6/2022] @Ultrascan-research.com:

Several of our sources, report the suicide attack on the Russian embassy in the 7th district of Kabul city:

### Conflict among Taliban leaders

The Haqqani network and Mullah Yaqoob, conflict with other Taliban leaders because they must act according to the Doha agreement. Big networks like ISIS, al-Qaeda, and foreign terrorist groups are secretly supported in Kabul and northern provinces.

### political confusion

After the fall of the Afghanistan republic and moving out of the Americans; Russia, China, and other neighboring countries are trying to intervene in the economic, political, and cultural sectors. This caused political confusion.

### Haqqani network

An offensive attack was organized by the Haqqani network, Mullah Yaqoub under the responsibility of Hafez Haqqani, a relative of Siraj Haqqani in coordination with the Ansarullah group of Tajikistan and Haji Forqan from the foreign fighters.

### Suicide attacker

Russian citizen and a member of Ansarullah Tajikistan the 18-year-old Abu Tariq, stayed at Wazir Akbar Khan Road 11, in one of the secret mansions related to the Haqqani network. He received suicide training in the Arzah district of Logar province and was released in the care of Hafez Haqqani who was responsible for the suicide attacker.

### Remote controlled detonation

The attack took place on September 5, 2022, in the 7th district of Kabul city where his target was Russian employees inside the Russian embassy. He was taken down by the officials at the embassy gate. After he was shot, the bomb was detonated with remote control.

### *Our colleagues add:*

*that, from this date onwards, the Haqqani network and Mullah Yaqoub, in coordination with ISIS and foreign terrorist groups are in pursuit of assassinations of high-ranking officials, businessmen, and engineers of countries like Russia, China, and Uzbekistan. This was only the first and successful attack.*

----

## NOTES!

*Haji Forqan*

*Mulah Omar*

*Mullah Hibatullah*

*Colonel Halimov*

*Bagram airforce base*

*Haji Forqan*

*\* for months, It was rumored that Haji Forqan was killed and replaced by a mirror image. Resolved - Photo's of Haji Forqan. in Pul-e-Khumri, Baghlan, taken on date: 28\_4\_2022*

*Mullah Omar*

*\* Mullah Omar died before 2003 and was replaced by a creative narrative.*

*Mullah Hibatullah*

*\* It seems the figurehead Mullah Hibatullah is part of a similar narrative.*

*Colonel Gulmurod Halimov*

*\* Fabricated for narrative - former commander of the Special Forces of Tajikistan, joined the Islamic State (IS) in Syria, in May 2015. Halimov had a significant following inside Tajikistan as well as Russia. Even though he has been reported killed several times, the Tajik authorities rejected those reports. Halimov's name remained on the UN Security Council's sanctions list. Starting with a fictional visit to Kabul on August 25, 2021, the intelligence department of the Haqqani Taliban and ISI fabricated reports of Halimov's meetings in Afghanistan with high-ranking Taliban and leaders of ISIS. On Saturday, August 27 2022 his remains were released.*

*Bagram airforce base*

*\* Some time after Kabul's fall, fuel and lubrication is delivered at Bagram airport to over one hundred "contractors" who are serviced by a group of 300 third-tier workers from India. In part protected by Badri forces from the Haqqani network. While another part of the airport is protected by fighters from the Quetta Council.*

*Lost in translation*

*\* some of the content comes directly from sources that use automatic translations, which can lead to incomprehensible English sentences.*

## FIX THIS

The enemy appears driven and motivated by something other than ideology or funding. Every one of these events (could have) occurred as a result of a failure of imagination. The job is not to predict tomorrow based on yesterday. That's what academics do. The task is to prevent the end of tomorrow by using your brains and your imagination. If you don't identify and find the threat before it's too late, you might be held responsible for the single largest intelligence fumble since a flight instruction school in Florida failed to grasp the significance of a 19-year-old Al-Qaeda terrorist saying he didn't need to learn how to land.

## Some paid advice

Ultimately, one can find them all to be a human failures.

But suppose you believe that wars and insurgencies resulted from intelligence failures, or even worse, a lack of strategy. In that case, consider yourself lucky because nobody will tell you their actual military strategy and intelligence policies for you only to have an opinion. No, you are at the receiving end of a successful strategy and intelligence narrative.

## A context of intelligence operations

Since 2007 the intelligence services prepared for a significant shift in real US geo-policy, military power, and intelligence.

---

*An essential part of that shift, leaving war zones and decreasing its military presence in partner countries, occurs. It is explicitly cutting off Iran, Pakistan, and Israel. Allocated financial DoD resources show that what remains are substantial special operations (US-SOCOM) [...] a prioritized global monitor function. [...]*

---

## Why HUMINT

Why do we need secret agents? Isn't it all rather quaint?

Is it that we see a different, more frightening world than you do?

Our enemies are no longer nations and do not exist on a map but are non-state actors and unknown individuals. Look around you, who do you fear? Can you see a face, a uniform, a flag? No. Yet, before breakfast in their pajamas, they can do more damage from their laptops than an intelligence agent can during a year in the field. Online organized crime doesn't know law and order, has a Wild West mentality, and is lawless to the core. Anarchy.

While transparency became fashionable in the West, the world is not more transparent now. Today it's more opaque, in the shadows, and that's where we do battle. So, before you declare that irrelevant, ask yourselves, how safe do you feel?
